Effective Date: 3-1-2026

Description/Title:

Updated CHP Dolphin EVO Grip Design

Comments:

In June 2002, we introduced the CHP Dolphin Grip to the market, making our hand tools one of the most comfortable, ergonomic, and economical available, and since then, the design has caught on with other manufacturers. Beginning March 2026, we will begin supplying our CHP hand tools with the next evolution of the Dolphin Grip, the Dolphin EVO. This new grip design uses an optimized shape that provides a larger contact surface with your hand, allowing for a more ergonomic grip; an integrated texture that improves the grip's anti-slip properties; and the latest environmentally friendly materials that meet or exceed current regulatory requirements.

The new grips will begin to appear throughout this year as we cycle through our inventory.

Part Nos:

See Page 2 for part number list.

Specification:

All tool part numbers and specifications remain unchanged.
